TO WHOM IT MAY CONCERN

I have been using the translation services of Mari C. da Silva since 2004.

The translation was mainly for the Animal Improvement Institute of the Agricultural Research Council. Many of the documents were related to animal production and included the scientific cooperation agreement between the ARC – Animal Improvement Institute in South Africa and the Veterinary Research Institute in Angola. She also translated the website of the Foreign Services Division of the ARC-AII and many letters and quotations. Many of these documents were of a technical nature and many were done under tight deadlines. She was always very professional and never missed a deadline.

I kept on using the translation services of Mari C. da Silva after I left the ARC and will continue to do so in future.

Mari da Silva delivers a very prompt and professional service and I have referred many people to her in the past and will confidently do so in the future.

Yours sincerely

Henk van Zyl
