4 August 2009

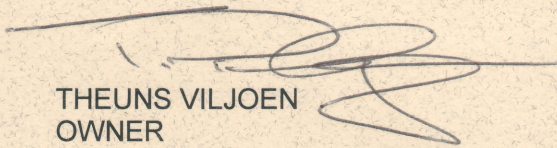

### TO WHOM IT MAY CONCERN

This letter confirms that Mari da Silva was used by us to perform translation services. The translations were from Portuguese (Brazil) to English and visa versa.

Her work was of an exceptional standard and her proficiency enabled us to complete a multi-million dollar project across the waters without having to consider the communication differences. She did it all.

We praise her skills and can recommend her for any similar work that is on offer.

Yours truly

  
THEUNS VILJOEN
