Dear Mari,

It is with great appreciation that we received delivery of the CES Company Profile in Portuguese.

You certainly rose to this challenge and succeeded with distinction. We had to find a translator with extreme competence conversing in technical fields of expertise in the Mining and Construction environments (our target Market in Mozambique)

You helped us in this booklet to make our potential market believe that we would exceed their expectations and I'm sure that all at CES would like to recommend you where possible, for you have done us proud.

Thank you,

Your Sincerely
